Welcome

The vendors of the Western Downs Santa Group extend a warm invitation to you for our 3rd Annual Bull Sale to be held on a new day this year, Friday 13th September at the Dalby Saleyards.

We are very pleased to present to you our 2019 draft of sale bulls. This year our nine vendors have catalogued 77 classified and commercial bulls for your consideration from a diverse range of environments. They represent each individual vendors commitment to producing quality bulls for our sale. Our catalogue is packed full of quality bulls from start to finish.

For buyers confidence, all sale bulls have been semen & morphology tested, vaccinated for 7 in 1, Vibrio, 3 Day, Tick Fever & Pesti Virus and or pesti tested negative. The bulls will also be muscled scanned for eye muscle, rib & rump fat & have scrotal measurements taken. A supplementary sheet will be available on our website a week before sale day.

Once again, our vendors are offering free freight where possible to help you get your new bulls home by Saleyard drop-offs or other arrangements. Please speak to one of the agents or vendors about the free freight as there are conditions that apply.

Please join us the afternoon before the sale, Thursday 12th Sept. Take a look around the bulls prior to the sale and enjoy complimentary drinks & finger food. Inspections will be available early on sale day.

We thank you for taking the time to look through our 3rd Annual Sale Catalogue and hope that you find bulls that suit your requirements.

Sale Information

Inspection

Bulls will be available for inspection at the Dalby Regional Saleyards from 2.00pm on Thursday 12th September, the afternoon before the sale. Anyone wishing to inspect the bulls on the vendors property would be welcomed and encouraged to contact the vendors for individual inspection arrangements.

Animal Health

All Sale Bulls are vaccinated for:

- ✓ 3 Day Sickness
- ✓ 7 in 1 (which includes Leptospirosis vaccine)
- ✓ 3 Germ Blood
- ✓ Vibrio
- ✓ Pesti Virus and/or tested PI negative

J-BAS - All vendors are a J-BAS score of 6 or higher

Breeding Soundness

All bulls offered for sale will have passed a crush side semen evaluation and will be Morphology tested.

Supplementary Sheet

A supplementary sheet with individual bull weights, average daily weight gains, muscle scanning (EMA, Rib & Rump Fat), scrotal circumference & semen morphology results will be available for download on the Western Downs Santa Group website a week before the sale and on Sale Day.

Outside Agent Rebates

The vendors agree to pay the following Outside Agent Rebates:

A 5% rebate to Agents who introduce buyers at least 24 hrs prior to the sale and attend the sale.

A 2% rebate to Agents who introduce buyers at least 24 hrs prior to our sale and do not attend sale.

Invoices must be paid in full within 7 days of sale. Rebate will not be paid outside these terms

Insurance

Insurance representatives will be in attendance and are able to insure your purchases at the fall of the hammer

Refreshments

The Saleyards canteen will be in operation throughout the day.

Sale Information

Intending Buyers

The sale will be conducted using the bid card system. Intending buyers are asked to register prior to the start of the sale.

EBV's

Vendors who are members of Breedplan will have their bull's EBV data displayed with each bull.

Phone Bidding

Mobile reception at the Dalby Saleyards is very good. If you are unable to come to the sale, but would like to bid on any sale lots, please contact one of the selling agents at GDL for a phone link up.

Instruction Slip

Please complete your buyers Instruction Slip in full once you have completed your purchases. These will be available at the GDL registration tent. No verbal instructions can be accepted.

Delivery

Bulls can be delivered from the sale complex at the completion of the sale. Make sure your buyers instruction slip is completed and handed to one of the agents.

Transport

We highly recommend Frasers Livestock Transport and are offering our Free Freight option through them or where possible the WDSG vendors will help to get your new bulls home. Please indicate when finalising your purchases after the sale if you would like to take up the free freight option.

Breeding Guarantee

All bulls are sold as guaranteed breeders. If any issues arise in the unlikely event of infertility with your purchases, please don't hesitate to contact the vendor within 6 months of sale date. Conditions apply.

Disclaimer

The WDSG vendors have produced this catalogue with every effort to ensure the accuracy of the information, however they, nor the agents will not be responsible for any errors or omissions. All persons who attend the sale do so at their own risk. The vendors, selling agents and sale yard management do not assume or accept any responsibility or liability, of whatever nature, legal or otherwise, for any accident, injury or damage which may occur.

Byac

Byac Santa's was established in May 2006, by 13-year-old Cayb Schwerin. From the start Cayb has had big dreams to build an empire of quality Santa Gertrudis Cattle for both stud and commercial. Currently Byac Santa's is run on Cayb's 70 acres located at Spring Creek, Queensland with 15 stud cows. This will be the first of many properties for Cayb and Byac Santa's.

The stud name "BYAC", is Cayb's name spelt backwards. Since the beginning, Cayb has always had a good quality eye for cattle, in the stud herd at the moment run the bloodlines from Noralla, Allendale, Diamond H, Esgee Plains, Talgai & Oakdale to name a few.

Cayb has successfully shown his stud bulls, heifers, cows throughout the Southern Queensland show circuits including the EKKA. Not only has Cayb successfully shown cattle but has also successfully competed in numerous Junior Judging and Paraders events across Southern Queensland and again at the EKKA.

Cayb started selling Byac Santa's Bulls through the Big S Sale in Toowoomba and the Heartland Sale at Roma. Byac Santa's have successfully sold through both these sales as well as privately.

Cayb has achieved a lot with his stud in the past 11 years, with bulls like Byac Jordy in 2010 making \$8,500.00, Byac Fabulous in 2012, making \$12,000. With having these potential sires out and about only helps to making Byac Santa's name even bigger.

After having a break from the show circuit for a couple of years, to build a house and to focus on improving his 70 acres, Cayb returns to the well known show rings with a Santa Heifer that he has bred out of the Hayleigh heifer that was raffled at the Toowoomba Sale 3 years ago and by the bull mentioned above, Byac Jordy. This little heifer, Byac Maddie is just a little ripper and will be a valuable part to the future breeding of Byac Santa's.

Byac Pistol (P)

Denngal

DENNGAL SANTA GERTRIDIS STUD is located on “Wilga Downs” “The Pines” and more recently “Whispering Pines” at Jemalong, situated 40kms west of Forbes in the heart of the Lachlan Valley, proudly owned and operated by Dennis, his son Greg Moxey and their wives and families.

In 1982 the Denngal Stud was formed with the discovery of how versatile the Santa Breed is and the ability to meet all market requirements. The stud is now 36 years old and has gained excellent results with muscling and carcass yield.

Denngal Stud was based on cattle from Pampoola, Kerabury, Kamahle and G.B.L studs along with blood lines from Kuloomba, Woburn Downs, King Ranch, Goonoo and Cumberland studs. “With sires added from Yarrowonga/Waco, Gyranda and Wave Hill Studs” Showing is an integral part of our business, especially as we are located in a British Breed dominated area.

We have always placed upmost importance on temperament, carcass and the ability to visually assess live cattle. This has shaped the Denngal Santa Stud, producing bulls with high muscle definition that consistently pass their characteristics on to their progeny. High yield and early maturity has resulted in numerous bull sales to local commercial breeders to use over their British breeds, based on the knowledge that they will increase their muscle score and have a calf that finishes at any age. Hence our motto:

“Muscle Makes Money”

Look up our website www.denngal.com.au for photos and further information on our 2018 sales. Inspection and paddock sales are always welcome.

CURRENT SIRES:

WAVE HILL H43 (P)

WACO XCEL (P)

Dundee

The Dundee Stud was established 33 years ago with Pampoola cows purchased from Kym McMaster's grandfather, Felix Schmidt, her Uncle, Noel Schmidt and her parents Lester and Barbara Schmidt who then had a share of the Yarrandoo Stud. Noel Schmidt also leant Dundee a top Bull, Pampoola 82H, who was by King Ranch D9. From this great start and further use of Pampoola bloodlines and King Ranch sire 199N, bought at the King Ranch Dispersal Sale, a top line of females was produced.

In 1996 Dundee, purchased Rosevale T329 a heavily muscled, long framed, polled bull who had an incredible impact on their Stud. Rosevale T329 consistently produced well-muscled, early maturing bulls that had great growth for age and plenty of fertility. His daughters are highly fertile, feminine, soft and well-muscled. Pampoola Nato(P) was purchased in 2000, he added frame and smoothness to the Dundee cattle while retaining the polled gene and tidy sheaths. Nato crossed well over the Rosevale females, producing a slightly bigger animal with a smoother top-line and plenty of depth and fleshing. Kendara Uni was purchased in 2005 for \$11000, he was selected for his massive weight gaining ability, his temperament, his fleshing, his tidy sheath and his tropical coat type. Uni is also extremely fertile with semen morphology of 92% at 2-year-old and a 98% pregnancy rate over his last 5 years. In 2009 Kendara Zinger was purchased for \$10000. A polled son of Dundee Larriken, one of Kendara's most influential sires, Zinger was purchased for his doing ability, temperament, clean tropical coat and his pre-potent genetics. He was joined to many of Nato's cows and Uni's heifers and produced top calves. Dundee Ulysses (P) one of Nato's better sons was retained for stud duties due to his fantastic figures, temperament and doing ability. Dundee Extra, one of Ulysses first drop of sons, sold for \$13000 in 2011 to the Fishington Stud and another Dundee YMCA sold to the Rowanlea Stud' for \$12500 in 2012. In 2011 we purchased Moongana Gothic a polled son of Dunlop Gothic, his sons were long, correct, mostly polled and dark. In 2013 in partnership with Noel and Jan Schmidt from the Pampoola Stud, we purchased Canowindra Kentucky (PS) for \$22000. For 2015 we retained 'Dundee Battalion' a polled son of Ulysses who had tremendous growth, a soft loose coat with great bone and a good sheath. In 2016 we purchased 'Watasanta Kan Do' for \$12,000, a polled son of Watasanta Grand Boy out of a top Kelly Wallah Sauron cow 515. Kan Do was purchased for his smooth carcass, dark coat and early maturity, his docile disposition and his top dam line.

We select our females firstly on fertility; all must have a calf each year, and secondly on performance; each female must consistently produce a calf that will classify. Failure to meet these criteria leads to a short trip to the meat works. Consequently, we have a high pregnancy rate each year and very high classification rates 80%+. As we were a single sire herd for many years our cows are all related and their offspring are very similar. The Bulls we are producing are a popular type and their pre-potency has been a major contributing factor in our success. Every year we contact all of our clients and assess our bull's performance and our client satisfaction and to date we have had very positive feedback. Our commercial clients are keen to put muscle and weight for age improvements into their herd and repeat buyers have been impressed by the fertility of the bulls, their temperament and their doing ability.

We look forward to presenting the *tops* of our draft to you at the next Western Downs Sale.

DUNDEE BULLS: PREPOTENT PADDOCK PERFORMERS

Dundee Ulysses (P)

Glen Leigh

The Glen Leigh Stud was registered as stud no. 2018 in 2006, after breeding and cross breeding with Santa Gertrudis since 1992. Our aim is to breed cattle that are well balanced in structure, muscle and fat content and have the ability to gain weight quickly and efficiently. The many benefits from breeding with Santa Gertrudis has helped us to achieve a herd of low maintenance cattle that perform better in harder times. Fertility in our bulls and females is a priority and an emphasis is placed on quality rather than quantity and we aim to produce cattle that are easy doing, highly fertile and above all have a good temperament.

Our policy that we have always stuck by is "If we couldn't trust an animal around our young children, then it was culled". That policy still exists with us today even now that our children have grown up. We are always highly critical of our own cattle. They are put through a strict culling process to ensure the herd maintains a high standard. Males must be masculine, have good sheaths, adequate testes, good growth and be highly fertile. Females must be feminine and have good udders with fine teats to produce enough milk for their calves and be able to reproduce a calf each year.

In the beginning, we sourced stud females from the Santa Park Major Reduction Sale, Hartwood Dispersal & the Warenda Major Reduction Sale, while commercial females were purchased from the Warrillee stud in 2014 & 2015. These girls have clicked extremely well with Wilgaroon Duntroon.

Sire: Moongana Iron Man I2376 (P) was purchased from the Moongana Invitational Sale at Springsure in August 2015 for \$20,000. He is a homozygous poll bull with tremendous carcass and bone in which he is passing onto his progeny.

We have been so impressed with what he is producing here, his females are outstanding and his sons averaged just under \$8000 head in 2018. At classification this year, 100% of his progeny that were presented were classified. His daughters are in production and we are looking forward to seeing their calves grow out.

Tookey Creek Kofu K60 (P) is a deep bodied dark red homozygous polled son of Greenup Gaffer G74 (P). We purchased him from the Tookey Creek & Jarrah Park Sale in 2016. He was purchased for \$16,000. His EBV's place him around the top 5% for his 200, 400 & 600 Day Weights and top 10% for his Carcass, Mature weight and Retail Beef Yield.

Kofu has been used over our heifers and cows and he does not disappoint. His third crop of calves are hitting the ground running. They are born small, but quickly gain weight and thicken up. We never have to aid the heifers while calving. These are his first offering of sons in 2019.

Check out our website at www.glenleightsantas.com.au

There are photos of this year's sale bull and their sires on our website.

We welcome all enquiries and our gate is always open, the kettle is always only a boil away!!

Regards, Ian & Felicity Shaw

TOOKEY CREEK KOFU K60 (PP)

MOONGANA IRON MAN I2376 (PP)

Hallcraig

Hallcraig Stud was established in 2006 after using Santa bulls in a commercial cross breeding program for over 25 years.

I run over 800 adult cattle including 400 breeders plus about 400 acres of fodder cropping for hay and silage production on 2700 acres at Deepwater in the New England region of NSW.

I have tried to breed bulls that the commercial cattleman is looking for; easy doing, efficient feed convertors, good structure, fertile and well muscled but with the ability to lay down fat. The type of bulls that you can rely on to do the job year after year and whose progeny will be in high demand at saleyards and abattoirs.

A wide selection of genetics have been used from Rosevale, Kamawa, Benelkay to name a few. Dengal Hopper H50 (PS), a Sydney Show champion bull was purchased in 2015 and his progeny are displaying great promise which we will be keen to present for sale in 2018.

Hallcraig Santas

Sire: Hallcraig Hombre H36 (P)

Cows & Calves at Hallcraig

Hay & Silage

Hayleigh

Hayleigh Santa Stud No. 1948 was registered in 2002. Situated at Dulong and operated by Rod, Margaret, Ross, Louisa Wilson. Our herd base was 50% of the Merrarie herd and our present herd represent over 30 years of Stud breeding. Since 2002 sires have been sourced from Yarrawonga, Waco, Diamond H, Tyndale, Rosevale, Sujo, Yulgilbar, Dangarfield and more recently Canowindra and Warrillee Studs. Some females were purchased from the Raytek Stud dispersal to add to our polled herd. We aim to breed cattle which mature reasonably early but still grow on to bigger framed cattle.

2017 Sale Bulls on oats

Swan Hill

The Swan Hill Santa Gertrudis stud was established in 1960 by Terry Russell and his wife Jacqueline, making it one of the few studs to have reached over 50 years of breeding. At this time the Blackall-Tambo district was seen as Merino wool country and the few cattle in the area were predominantly Shorthorn or Hereford.

The decision to bring Santa Gertrudis to the area was considered risky at the time however the breed quickly proved to be a successful crossbreed and purebred in their own right.

The first Santa Gertrudis cows arrived at Swan Hill on Melbourne Cup day in 1960. The Swan Hill Stud was founded on King Ranch bloodlines and developed with predominately Yarrowonga bloodlines. In recent years replacement sires have been secured from a range of studs including Rowanlea, Warrillee, Drensmaine, Rosevale and Eyriewald as well as from within the Swan Hill stud.

The first on property auction sale was held in June 1969 with 39 bulls and 20 heifers on offer. Swan Hill has held an on property sale every year since, with the exception of the last few years when the annual sale was held at the Blackall Sale Yards due to the prolonged widespread drought.

Today Swan Hill Cattle Company is run by Terry's son Cam, along with his wife Fiona and their children, and includes three properties in the Blackall-Tambo district. In recent years the drought has forced a reduction in stock numbers with approximately 600 head remaining in the commercial herd, and 300 cows in the stud.

The Swan Hill breeding program places emphasis on good muscled, easy doing cattle. A calm temperament and fertility are also important, as well as a strong, but not dominant, poll genetic mix.

Triple S

Triple S stud was established in 2008 by the Bruggemann family, although we have been breeding Santa's for 25 years. We are based 26 kms north of Taroom at "Wongalea". "Wongalea" consists of improved Brigalow country growing mainly buffel grass and about 300 acres of cultivation used for oats preparation of our bulls and fattening steers and heifers for the EU market.

We run about 400 cows of which 200 of these are registered. All females are control mated and must preg test in calf every year or be culled, as has been our practice for the last 25 years. Our main sires in use in the stud herd are Yarrowonga Dividend (P) \$36000, Canowindra Oakley (P) \$32000, Waco Flint(P) \$18000 and our exceptional homebred sire Triple S Keg.

When we are breeding bulls we are very commercially focused, we keep 50 to 60 of our best bull calves at branding and we cull once in November and then in February to get our best 30 saleable animals. When we cull the bulls, we cull for unsuitable temperament, loose sheaths, incorrect structure and any bull that does not have enough weight gain and performance is also culled. At the end of this the breed classifier scrutinises our remaining bulls to decide whether they will be classified "S" or herd bull status.

We aim to sell sale bulls with high weight gain, good bone and muscle while maintaining fat cover and high fertility. We aim to preserve loose skin and tropical content while keeping enough frame to maintain size in the majority of breeding herds.

This year we have been very lucky to have had a good oats crop on which the sale bulls have spent 70 days grazing on. The oats preparation will see the bulls in optimal health and condition by sale day.

We are very pleased to be selling at the Western Downs Santa Sale and we believe this sale will be well received by buyers and look forward to meeting you all at the sale in September.

Jason, Bridie, Kylie, Tyler & Ella

Sire: Yarrowonga Dividend J494 (P)

Triple S Keg K44

Triple S Payback P72

Warrillee

The Beutel family's Warrillee Santa Gertrudis stud is based at Bunburra 6km south of Boonah. Our property is located on the coastal side of the Great Dividing Range, east of Cunninghams Gap. We have been breeding Santa Gertrudis cattle for over 40 years with the stud being established in 1980.

Warrillee cattle are bred to satisfy the requirements of the commercial beef industry. At the local Boonah and Beaudesert commercial show and sales Warrillee cattle or progeny of Warrillee bulls constantly win the Supreme Champion awards and sell for the highest prices per kg mainly to Darling Downs feedlots or for replacement breeders. The saying 'The coastal cattle that go to the west do the best' has been proven many times, Warrillee bulls that have been sold to the west of the Great Dividing Range have grown and performed very well for their new owners.

You have the opportunity to purchase proven Warrillee genetics at the Western Downs Santa bull sale.

For photos and information about our cattle visit our website at – www.warrilleesantas.com

TRIPLE S POWERPACK P38

CLASSIFIED

Vendor: Herbert Bruggemann F/T

Society ID: SSS18MP38

Tattoo: P38

Horn/Poll: HORNED

DOB 06/09/2017

Sire: CANOWINDRA O67 (P)
 KM BONANZA 298 (PS)
 CANOWINDRA L17 (P)

Dam: TRIPLE S D3
 MULTIPLE SIRE
 MULTIPLE DAM

Triple S Powerpack is a strong, robust bull that stands on good bone and has great weight for age. He is also good in the fertility department with a large scrotal measurement. His dam D3 is one of our top cows. She is a large frame fertile cow having had 9 calves in 9 years and is PTIC again due to calve in October. Her progeny include retained sire K12, J6(S Bull), L7 and N69 (retained heifers) and M56 (S bull sold for \$5000 to Bart Officer Boomii).

Sale Gross				

Thank You

The vendors of the Western Downs Santa Group would like to thank you for supporting our 3rd Annual Bull Sale today.

We trust that the bulls will perform well in your herds. If, for any reason, a problem arises, please let us be the first to know as we may be able to help you.

The vendors would like you to join us for refreshments and we wish you a safe journey home and look forward to seeing you at our 2020 sale.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
(b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.

(c) A buyer is bound by these terms and conditions by bidding at auction.

(d) Competition and Consumer Act (Cth) 2010

It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:
i. price-fixing; or
ii. restricting outputs in the production and supply chain; or
iii. allocating customers, suppliers or territories; or
iv. bid-rigging; or
v. collusive bidding.

Large fines and other sanctions may be imposed for unlawful conduct.

2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.

(b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.

3. The following applies in interpreting these terms and conditions:

(a) The following words have the following meanings:

Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transportation levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;

Livestock means animals auctioned pursuant to these terms and conditions; and
Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions

(b) Any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and

(i) plus any GST added in accordance with clause 12.

(b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.

5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.

6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 6, the auctioneer decides to put the lot up again.

7. Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.

8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.

9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.

10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.

11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:

(a) the purchaser's name; or

(b) the bid card number which identifies the purchaser; or

(c) the name of the person on whose behalf the successful bid was made; and

(d) the Property Identification Code (known as the "PIC") of destination.

12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.

13. The vendor warrants;

(a) That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
(b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.

14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising as a result of a re-sale and is not entitled to any resulting profit.

15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.

16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.

17. (a) Cattle sold on a live/weight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.

(b) Cattle sold on a live/weight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.

(c) All livestock other than cattle sold on a live/weight basis are at the risk and expense of the buyer upon the fall of the hammer.

18. (a) Subject to this clause the sale is complete on the fall of the hammer.

(b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:

(i) delivery is taken by a representative of the buyer;

(ii) departure of the animal from the purchaser's delivery pen; or

(iii) one hour after the last animal is sold;

(a) In the case of pre-sale weighing, sold; or

(b) In the case of post-sale weighing, weighed.

(c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.

(d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.

(e) This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This

subclause does not apply if the agent makes an announcement to that effect prior to sale.

19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.

(b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.

(c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.

(d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.

(e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.

(f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) process the NLIS/ERP database, the agent will inform the buyers by presale catalogue and/or announce the status prior to the offering of those lots.

20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:

(a) does not acquire title to the livestock;

(b) holds the livestock as bailee only for the vendor;

(c) must act in a fiduciary capacity in its relationship with the vendor;

(d) must store the stock separately or so that they are readily distinguishable from all other livestock owned by the buyer;

(e) is responsible for the safety and well being of the livestock;

(f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and

(g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.

21. The purchaser agrees that:

(a) Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);

(b) The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;

(c) The Livestock are collateral for the purposes of the PPSA;

(d) to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and

(e) the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract

22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.

23.1. Clause 21 applies unless the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.

23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.

23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.5 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.

23.4. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:

(a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and

(b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.

23.5. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).

23.6. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:

(a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and

(b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.

23.7. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.

23.8. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:

(a) by this clause 23, other than as it expressly provides; or

(b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.

23.9. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.

24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.

(b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.

(c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.

25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

(b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE – VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPPC Processor levy.

27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:

(a) pass government and other regulatory authority requirements and inspections at the time of slaughter;

(b) are of merchantable quality;

(c) carry an NLS device in accordance with State law;

(d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and

(e) all information in any document provided by the vendor is true, complete and correct in all material respects.

28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.

29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.

30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.

31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:

(a) the buyer will be entitled to delay payment for the price of all livestock in that lot only; or

(b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.

32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:

(a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;

(b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and

(c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPPC Processor levy.

34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.

35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.

36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:

(a) a certificate is issued by government which states the relevant NLS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;

(b) the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and

(c) if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.

37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

NSW Property, Stock and Business Agents Act 2002 Warnings

Penalties for collusive practices. It is an offence against the Property, Stock and Business

Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

(i) to abstain from bidding; or

(ii) to bid to a limited extent only; or

(iii) to do any other act that might prevent free and open competition.

Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmania Legislation. An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

WA Auction Sales Act 1973 s31 NOTICE.

It is an offence to:

(i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;

(ii) abstain or agree to abstain from bidding as a result of such a promise;

(iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;

(iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or

(v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
